Poojasri *Kumar*

AI/ML Engineer | Generative AI, RAG & Python Application Development

Tamil Nadu, India poojasrikumar006@gmail.com github.com/Poojasri06

linkedin.com/in/poojasrikumar06 Portfolio

SUMMARY

AI/ML Engineer with a B.Sc. in Artificial Intelligence and Machine Learning (graduated 2026). Builds Python-based Generative AI and Retrieval-Augmented Generation applications using FastAPI, Flask, Streamlit, FAISS and PostgreSQL.

Experience across AI/ML internships, AI application development, deepfake-detection research, and freelance delivery of AI/ML and web solutions through IGNIQ Solutions. Focuses on turning business requirements into working prototypes and practical LLM-powered applications.

EXPERIENCE

AI Full-Stack Developer Intern

Current · Onsite

Litz Technologies · Coimbatore, Tamil Nadu

- Apply Python, SQL, JavaScript, machine learning and deep learning to AI-driven application features.
- Work across AI functionality and full-stack application development.

Founder

Freelance

IGNIQ Solutions

- Deliver freelance AI/ML and web solutions from requirements gathering and architecture through implementation and deployment.
- Client work includes the JK Sports e-commerce platform.

AI Developer

2026

Kealogics Technologies

- Contributed to AI-powered application functionality for an educational platform.

HIT Foundation Buildathon

2026

Home Ideas Technologies Pvt. Ltd.

- Participated in building HIT Assist, an LLM-powered support and lead-generation chatbot.

AI/ML Research Intern
Overload Ware Labs — 2026

Machine Learning Intern
Prinston Smart Engineers India — 2025

TECHNICAL SKILLS

Generative AI

Retrieval-Augmented Generation (RAG), Prompt Engineering, LLM Tool Calling, Claude API, FAISS, Chroma, Sentence Transformers and embeddings, Guardrails, Speech-to-Text with faster-whisper, Text Generation

Python & AI/ML

Python, Pandas, NumPy, Matplotlib, Scikit-learn, Data Preprocessing, Feature Engineering, Deep Learning, Convolutional Neural Networks (CNN), Computer Vision

Application Development

FastAPI, Flask, Streamlit, REST API Development, React, Next.js

Databases & Infrastructure

PostgreSQL, SQL, Prisma, Firestore, Firebase, Cloud Functions, Secret Manager, Vercel, Render, Git and GitHub, Role-Based Admin Access, AES-256-GCM Encryption

FEATURED PROJECTS

Voice-Enabled RAG Pipeline — Hacker House Goa 2026
`Python · FastAPI · Streamlit · faster-whisper · Sentence Transformers · FAISS`

End-to-end voice-to-answer RAG application with three chunking strategies, two layers of guardrails, and a benchmarking harness for comparing retrieval quality.

HIT Assist — AI Support and Lead-Generation Chatbot
`React · Flask · Claude API · PostgreSQL`

LLM-powered chatbot using tool calling for intent detection and lead extraction, with SMTP email notifications and an admin panel. Deployed on Vercel and Render. Uses direct knowledge-base injection for a small, static knowledge base rather than adding vector-database complexity.

CallPilot AI — Voice AI SaaS Dashboard

`Next.js 14 · Twilio · PostgreSQL · Prisma · Anthropic/OpenAI adapter`

Voice AI SaaS dashboard scaffold developed in three build phases, with a provider-agnostic LLM adapter so model providers can be switched without rewriting the application integration.

JK Sports E-Commerce Platform

`Firebase · Cloud Functions · Razorpay`

Client e-commerce platform with Razorpay and cash-on-delivery checkout and an admin dashboard for products, orders, shipments and payments.

github.com/Poojasri06/jk-sports

Deepfake Detection Research

`CNN · Facial landmark tracking · FaceForensics++`

Co-authored deepfake-detection research using CNNs and facial landmark tracking, reporting 94.2% accuracy on the FaceForensics++ benchmark.

EDUCATION

B.Sc. Artificial Intelligence and Machine Learning

`Graduated May 2026`

Vivekanandha College of Arts and Science for Women (Autonomous) · Tiruchengode, Tamil Nadu

CGPA: 7.4/10
